## EuroNews Video Lessons

### Provide current events to your students

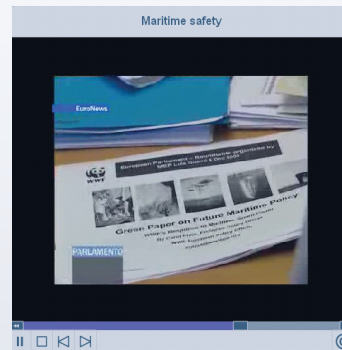

Auralog has partnered up with EuroNews and France 5 to offer an exciting enhancement, at no additional cost, to the TELL ME MORE® Campus foreign language program. Every Tuesday students will receive a new video based on lesson covering a specific current affairs topic in a fun, interactive way!

### Real World Current Events Learning

Each week students will have access to a 30-45 minute lesson covering key topics such as Science, Technology, the European Union, etc. Each lesson will feature video footage from an actual news broadcast and be accompanied by activities associated with language learning. Whether you are looking to supplement your students vocabulary and comprehension skills or to provide current events content - this is a great service!

### Put the "WOW" into your language programs

Just as TELL ME MORE® "wows" your learners you have the opportunity to take the learner experience to the next level. These new lessons provide an exciting fun way to learn. Students want technology and want to better understand the world from a global perspective. TELL ME MORE® is now able to provide both.

### Interactive and Fun

Students get the chance to not only enjoy a new experience but also to be actively engaged in a variety of learning exercises including:

- Word association
- Fill in the blanks
- Right word selection
- Grammar practice
- Comprehension questions

**Master a current affairs topic in 30 minutes or less!**  
**- Exclusively available through TELL ME MORE®**
